

Video/DVD Release & Announcement Window Averages by Domestic Box Office Gross

Data includes box office grosses (in millions) and home video release dates announced as of 12/14/2009. Calculations are derived only from films which had initial theatrical release in the time period specified and have home video release dates. Please note the "\$50M+" categories cover ALL films grossing over \$50 million (including films grossing over \$100 million); the "\$25M+" categories cover ALL films grossing over \$25 million (including those grossing over \$50 million and \$100 million); and the "\$0+" categories cover all theatrically released films, regardless of gross. *If a lower category of grosses is empty of films, it will naturally have the same average as the next highest category of grosses containing films.*
